

Becoming Model for Young Girl's Evening Frock

Evening Dress for Young Girl

The drawing depicts a very simple, but becoming, model for a young girl's evening frock. The gown from which the sketch was taken was of white silk mul, trimmed with three-inch bands of fine white lace insertion. The deep cape over-sleeves were made of the same insertion invisibly joined together. The bottom of the skirt and the trimming bands on the waist were of soft white silk folded on the bias.

Girls and the Business World

There is something so alluring in the business world that most women who are really very enthusiastic workers never care to get away from the fascination of the work, especially if the duties are pleasant. Many young women in business, who afterward marry, always speak regretfully of having to leave the business world to be alone in a home of their own. Undoubtedly work is hypnotic to many. Only a few days ago there was a young woman lamenting the fact that it was possible she would have to give up her position since the oil field on her father's farm was good for hundreds of dollars per day, and there was really no necessity for her working for \$10 a week. She said she cared little for the money, though she liked to be where other girls were working. There is a young woman who is married to a traveling salesman, though no one, or at least, only a few know it, and she prefers the business world to going to housekeeping and keeps steadily at work, though a change may come some time. Another one thinks she is single, though in reality she is just a happy little wife with a secret of her own and a tremendous love for her work. Often the business girl is valuable to the man she marries if she happens to have any knowledge of the business in which he is engaged, she can be a co-worker, often holding a responsible position which could not safely be given to a stranger. The business world may have its peculiar features, and a great amount of drudgery, but women like it, so that is all that is necessary.

The Mountain Coat

Driving coats are important items in outfits for the mountains, and two excellent models with some claims to originality were lately seen. One, of a heavy iron-gray worsted, has black pocket flaps, buttons and collars and cuffs, which would be a somber combination enough if it were not lightened in a most unexpected and pleasing manner by scarlet leather. This is turned back over the black collar and cuffs and slashed up in a single tab on each side, which is fastened by a scarlet button and simulated buttonhole.

To Clasp the Rug

It is kind of the jeweler to bethink him of some new thing for us to give our friends who are going to Europe. The necessity of outgirding our brains for something less trite than flowers, candy and the inevitable surprise packet adds considerably to the torture of parting. A large clasp pin of solid silver, very substantially made and purposed to fasten the steamer rug in place, is a nice contribution to this score. It is quite novel, and primarily intended for the steamer rug, although it may be used for any other rug. The clasp is fastened by a motor run shouldn't be favored with it as well. It's a pretty gift for any user of rugs.

Remembered Things

Whenever women are honored the gods are satisfied.—Hindoo Proverb. Women see without looking; their husbands often look without seeing.—Des Noyers. To live is to suffer, and a brave man always struggles to be master of himself.—Napoleon the Great. A wise man will desire no more than he can get justly, use soberly, distribute cheerfully, and leave contentedly.—Bacon. Eggs spoons that are stained should be rubbed with damp salt before polishing. Saucepans should be as flat and broad as possible, so that no heat may be wasted. If a few drops of glycerine be added to the starch for linens, it will be found that the iron will not stick and that the linens will have a beautiful gloss after they are ironed. Paraffin split on a stone floor may be removed by rubbing with brick over the mark and letting it stay till next day, then wash in the usual way, and the floor will be perfectly clean.—Woman's Life. Faint can be removed from glass by rubbing it with hot strong vinegar. Stains on the hands can be removed by acetic acid or salts of lemon, and ink marks will soon yield to pumice stone. To remove ink stains from linen dip the article in milk and let it soak for about two hours, then take out and wash with soap while the milk still remains on the spots of ink. This will remove any long standing stain. Use not today what tomorrow may want; neither leave that to hazard which foresight may provide or care prevent.—Home Notes. No man has a cooler outlook than he who is on the look out for himself only.—Home Notes. Happiness is always a home-made article.—Home Notes. Religion should be a life, not a doctrine.—George Wilson.

THE BABOON AND THE KANGAROO They had planned to clope, all alone, these two. The groom, a baboon, and a bride kangaroo. And so they were both clandestinely wed. When the groom of a sudden bethought him, and said: "My purse I've forgot. A plague on this marriage! Can't help it, my dear; you must furnish the carriage." So the groom stepped in, and they galloped away. Singing, "High and a Ho" on their bright wedding day. —Anthony H. Euwer, in Harper's Weekly.

WOMAN'S INQUIRY COLUMN.

Will Be Answered By Telephone.
Call Main 5260 and Ask for the Times Bureau of Information

Editor Woman's Inquiry Column:

Will you please tell me if corsets will make the skin dark? One cup a day will not, will it?

What will remove a small wart from the hand? Will thank you so much to answer my two questions. CAMILLE.

One cup of coffee a day is not in my opinion injurious, if it is not made too strong, but I am told that it will in time make the skin sallow.

A good wart eradicator is as follows: Sublimed sulphur, 120 grains; glycerine, 5 fluid drams; acetic acid, 1 fluid dram. Apply repeatedly to each wart, continuing the treatment for several days. The warts dry up and then drop off.

Street Railway Plans.

Editor Woman's Inquiry Column: Would you kindly publish your paper if the Capital Traction Railway Company intend to extend its lines out Pennsylvania avenue extended southeast, past Randle Highlands? Thank you in advance, Yours truly, H. T.

The Capital Traction Company will not extend their lines out Pennsylvania avenue southeast past Randle Highlands. They do, however, transfer to the cars that do go past Randle Highlands.

Removing Bunions.

Editor Woman's Inquiry Column: I have a most troublesome bunion that has bothered me for some time. Can you tell me of anything to relieve it? READER.

Get a bunion plaster from your druggist and stick with the scissors around the inside circle or opening. Moisten the plaster and put it over the bunion. Put a small wedge of felt between the great toe and the second toe, which will throw the foot more into shape. It will greatly relieve the pressure on the joint.

Draw the stocking on carefully. When you put your shoe on you will discover that the enlarged joint does not begin to show as much with the plaster as without. And all irritation is prevented by wearing the plaster, which makes it impossible for the leather to come in contact with the sore joint or irritate it. A good lotion for a bunion has been recommended to me. It is as follows: Carbolic acid, two fluid drams; tincture of iodine, two fluid drams; glycerine, two fluid drams. Paint the joint with this. Or, if you prefer, try painting with the plain iodine.

Buying Epoptone.

Editor Woman's Inquiry Column: Some time ago there appeared in your columns a formula for a skin whitener, one of the ingredients being "epoptone," a skin food. I obtained it from the drug stores for it, they say that they do not carry it and never heard of it. Also that it is a fake. Will you kindly tell through your columns where it may be obtained? MRS. W. L.

I am sorry but the lotion containing epoptone was recommended to me by some one who failed to tell me that epoptone was not obtainable. It is a Western product and you may be able to obtain it by sending to some reliable druggist in a Western city, Cleveland, for instance.

Dress for Bridegrooms.

Editor Woman's Inquiry Column: Please tell me through your column the proper dress for the bridegroom at the different times of the day and evening at a home wedding. B. R.

For a morning or afternoon wedding the correct dress for the bridegroom is the conventional black and gray striped trousers, white or pale gray tie, gray gloves, and silk hat. For an evening wedding the man should wear the conventional evening dress.

Restoration of Hair.

Editor Woman's Inquiry Column: Will you please publish in The Times the following: 1. What will keep caterpillars from plants and ferns? 2. Something for my hair. It is light and very thin, and more so on top, right in front. I must wear false hair, or else I could not get on going out. Please give me something that has no grease in it. 3. Something to wash my hair with, to keep it light and fluffy. I know you have helped so many others, and I feel confident you can help me. Thanking you in advance for your trouble, A READER.

1. Wrap the stem of the plants with cotton. Pull out the top of the cotton and sprinkle copiously with lime. This treatment slowly but surely works destruction to the destructive caterpillars. The treatment can be hastened by sprinkling the entire plant with water from a bucket partly filled with lime. 2. The following formula is an excellent hair grower: Bay rum, 1 ounce; distilled witch hazel, 4 ounces; common salt, 1 dram; hydrochloric acid (5%), 1 drop; magnesia, sufficient. Mix the bay rum and distilled extract of witch hazel, and shake with a little magnesia. Filter, and in the filtrate dissolve the salt and add one drop of hydrochloric acid. The magnesia will cause the preparation to turn quite yellow, but the yellow will disappear when the hydrochloric acid is added. Apply at nights to the roots, with friction. Massage also promotes the growth of the hair. It should be persevered in for some time, as the results are slow. 3. Egg shampoo keeps the hair light and fluffy.

Editor Woman's Inquiry Column: Can you inform me if there is a night school in the District where either mechanical, electrical, or civil engineering is taught? INQUIRY.

I think there are several schools holding night sessions where you can take the studies mentioned, but I cannot advise any particular one in this column. I think you can obtain the desired information from the advertisement column or by calling up by telephone the various commercial schools in the city.

Trixie Cadiz's Age.

Editor Woman's Inquiry Column: Kindly tell me how old Trixie Cadiz is. I think you recently played with the Aborn Opera Company at the National? Will she appear in Washington this season? What is her present address? What is her home address? Q. R. Y.

Miss Trixie Cadiz is twenty-one years old. She will appear in Washington some time this winter with the Anna Held Company in "The Parisian Model." I do not know her home address, but you can address her care of Anna Held Company, Broadway Theater, New York City.

Miss Purnell Not Married.

Kindly publish in your next issue if Miss Kathryn Purnell is married and if her husband is in her company. C. V. B.

Miss Kathryn Purnell is not married.

Recipe for Dill Pickles.

Editor Woman's Inquiry Column: Please publish in your columns a recipe for making German dill pickles. C. E. T.

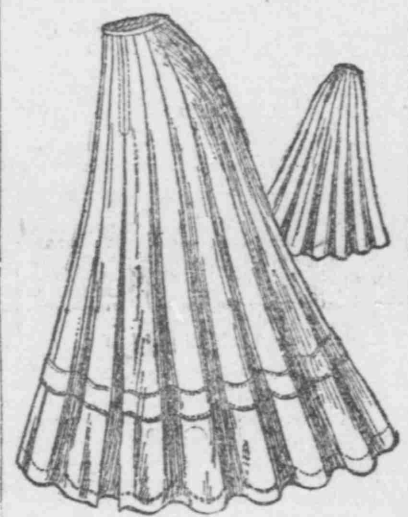

Make a brine strong enough to bear an egg, then add half as much more water as you have brine. Wash the cucumbers in cold water, and into a stone jar put first a layer of cucumbers, then a layer of grape leaves and a layer of dill, using leaves and stems. Continue in this way until the jar is full. Pour the brine over all and cover, first with a cloth, then with a plate, and put a weight on top of the plate. The cloth must be taken off and washed frequently as in making sauerkraut.

Using Roman Figures.

Editor Woman's Inquiry Column: Kindly published in your next issue the correct way of writing in Roman numerals 1907. Very respectfully, A. S. T.

MDCCLXXVII.

Paris Patterns

No. 2089.
Ladies' Nineteen-Gored Ripple Skirt, With an Inverted Box-Plait at Center of Front and Back.

All Seams Allowed.
The most pleasing feature of this thirteen-gored model is the full flare around the foot, which is becoming to everyone. This skirt would find its best development in panama, mohair or voile.

The pattern is in eight sizes—22 to 36 inches waist measure. For 26 waist the skirt, made of goods with nap, requires 32½ yards 29 inches wide, 34 yards 36 inches wide, 36 yards 42 inches wide, or 38 yards 54 inches wide; or, of goods without nap, 12 yards 20 inches wide, 14 yards 26 inches wide, 16 yards 36 inches wide, or 18 yards 42 inches wide, or 20 yards 54 inches wide, extra, will be needed for bias band.

To obtain this pattern or any of the others heretofore described in The Times, fill out the following coupon and inclose it with 10 cents in an envelope addressed to the Fashion Editor, The Washington Times, Munsey Building, Washington, D. C.
